Principal's Message

Dear readers,

"It's the teacher that makes the difference and not the classroom"

As a teacher, the opportunity for selfless service to go beyond to uplift the learners under their care brings them a lot of energy, enthusiasm and satisfaction.

Real teachers dedicate their 'self' for the cause of others, that is, the students with whom they come in contact every day.

Here I recall a saying by a Buddhist monk, 'Some teachers are like mothers who trick and surprise their students; some are harsh taskmasters trying to whittle down their ego and pride; others teach more through honoring and encouragement, nurturing the best in the student; some teachers lecture like professor; others can melt us open with their love and compassion. The greatest and simplest power of a teacher is the environment of their own freedom and joy'.

As teachers, they always have the challenge to focus on the overall development of the learners - intellectual, emotional, physical and spiritual imparting life skills to thrive in whatever they involve which becomes the core of education.

We bow down to the teaching fraternity for their dedicated selfless services during this pandemic times.

FOUNDERS DAY

“Train up a child in the way he should go: and when he is old, he will not depart from it.”

Proverbs 22:6

Celebrating a person's birthday is important because it shows the person of how valued they are to us.

It's important to look at your birthday as a spiritual awakening to know 'thyself' better and serve others with the abilities, talents, skills, and qualities that you have imparted to us.

Dear Reverend father Anton Cruz, through your life, you have shown us a wonderful path on how to lead a beautiful and a happy life witnessing the changes one can make in others' life. Through your vision and teachings we as GTCS family are proud to celebrate your birthday as founder's day.
