Principal's Message

Dear Readers,

To achieve progress in life we have to be patient and never compare ourselves with others. We have to realize where we are now to be able to progress and reach the goals we have set for ourselves. Accept the realities to avoid frustration and disappointments. Resisting the realities creates tension.

We can reach most of the goals we have set in life by knowing and following our passion.

It takes time and a lot of experimentation to know what our true passions are.

But once we know them, it becomes easy for us to behave, react, and make decisions in different life situations. Hence, rather than engaging in a rat race to get past friends and colleagues, focus on our passion and learn to love, adjust and help fellow beings to grow.

Be together to overcome and shine!

International Woman's Day

Never doubt that you are valuable and powerful and deserving of every chance in the world to pursue your dreams...

Happy Women's Day!

International Day Of Happiness

The International Day of Happiness brings awareness to happiness as a fundamental human goal and highlights the importance of happiness and well-being as an aspiration for people all around the world. Innocent smiles of children, sharing and caring with their friends is the first step to happiness. We @GTCS teach our young generation to give first priority for happiness and enjoy their childhood.

World Poetry Day

World is filled with opportunities
It's in our hand to choose the right path

Stepping into the world ...oh my lady
Is not an easy task

Grab the ladder of education
And climb the mountain of success

Your dedication will prove your efficiency
You are the shining star
Be a mentor for others...

- Viji Sophia
Primary coordinator

World Theatre Day

World Theatre Day was initiated in 1961 by the International Theatre Institute ITI. It is celebrated annually on the 27th March by ITI Centres and the international theatre community. Various national and international theatre events are organized to mark this occasion. World Theatre Day has been celebrated in many and varied ways. Moreover theatres, theatre professionals, theatre lovers, theatre universities, academies and schools celebrate it as well.

Kindergarten Graduation

Kindergarten graduation day is a transition phase from pre- school to Primary years; it marks a significant step in students lives. The graduation day celebration makes it memorable for tiny tots.

" Thank you messages to teachers".

Teaching is a profession that creates all other professions we are grateful that all of you chose to be teachers and graced us under your umbrella of expertise. I have been studying at gateway for 12 years and have encountered a plethora of teachers that contributed a tremendous amount of time and effort to the students and the school. You worked tirelessly in shaping our minds and led us on a good path. Many years have gone by, it's so amazing we don't realize how quickly time flies.

I would also like to thank the principal for her gracious work in providing all of us with a myriad of opportunities which benefited us in more ways than one. You have been a guiding light through trying times and I am forever grateful for your presence.

The teacher resembles a mentor and serves as an excellent role model for students. Every word spoken by you is embraced by the students. You are excellent and selfless people who accept each student without prejudice.

Time goes by quickly when you are having a good time under your guidance, we had the best time. Goodbyes are so hard but also incredibly special as I have the opportunity to say how special the person is to them. I would like to say a huge thank you to the teacher who taught us to learn even outside our classrooms and encouraged us to think outside the box. The teacher is the most influential person in a student's life after their parents and what a great influence you were for us to follow.

You were a constant source of motivation for everyone and taught us the importance of valuing and respecting other's knowledge. Each one of you always believed in teaching us in a practical world so that we don't forget our way in the real world.

No one will take your place in our lives and no one is worthy of filling your large shoes. Now it's time to part, and with good wishes and warm regards, we bid you goodbye, even though our paths diverge, your lessons will remain for us as long as we live. Thank you for being the best teacher, mentor and friend.

Afzal Ahmed -Head Boy

Gateway the complete School.

The Beats

Bhuvanesh: When I started schooling, this day seemed so far. Now it's here and I'm startled at how quick the time has passed away. I've spent nine years here in Gateway the Complete School, and over the course of the time, I've learnt a lot, through the teachers and my fellow students.

I was introduced as a timid and naive kid, but now I leave as a brave and confident man. Gateway's hospitality is what makes it stand out, from day one, I was constantly motivated and given the opportunity to express my talents.

I'm deeply sorrowful, but happy for a new chapter in my life. I'm pleased and I'll assert my gratitude towards the teachers, now and forever more!

Thank you Gateway. Thank you teachers.

Bagavathy: Gateway has been a place for me to grow, learn, enjoy and become a better person. I have made so many wonderful memories in this school, ones that I will never forget.

I am incredibly grateful to all of the teachers for always pushing me to be a better version of myself and being supportive through all aspects. They have taught me great values and skills that will definitely aid me through all the stages that are to come.

I have formed unforgettable bonds in this school and It saddens me to know that my school life is over, however, I am eager to discover more things life has to offer.

Thank you Gateway!

Aahana: I would like to express my heartfelt appreciation and gratitude to all my teachers for having encouraged, motivated and inspired me to prepare for my life ahead.

Teachers are always special, and their contribution in our lives is priceless.

The past three years have been an invaluable learning experience for me and I shall remain indebted to my teachers for having played such a significant role in shaping me to be a better human being and a better student.

I shall carry forward these learnings and work hard to achieve success as a token of my gratitude to my teachers.

Tejasvi:

In the six years I spent at this school, I have had an amazing and enjoyable experience. It is my pleasure to thank all the teachers and the principal for all the work they have done for us. Our school life is more fun because of them. They have taken us on trips such as the ones to Mumbai, Delhi, and Singapore. We have also had memorable sports days, carnivals and annual days because of our teachers.

Aksha:

I was a student in Gateway for over ten years and every teacher has left an everlasting impact on me. The teachers were kind, encouraging and extremely supportive. I might've been just another student to the teachers, but all of them are very important to me. I am immensely grateful for all of their guidance and for making my schooling a pleasant memory. Thank you teachers.

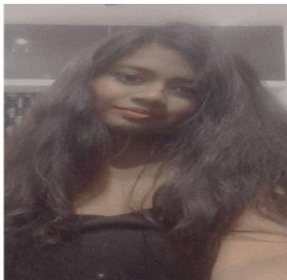

Arun: I would like to thank the teachers for all their assistance in helping me grow in this span of 11 years. Words aren't really enough to thank all of you for your exquisite works that you have done for my betterment. I am really lucky to be mentored by all of you, who hold such great abilities and a big heart in passing on your knowledge to us for our benefit.

Everyday I learned something new, which has helped me to exploit them for my advancement. You all are the reason for who I am now and I feel glad about it.
Thank you!!!

Priyanka: The teachers that I've met in the last 14 years at Gateway have made me into the woman I am today. I'm incredibly thankful to my kindergarten teachers who helped me make friends when I had none. I'm indebted to my primary and middle school teachers for helping me understand things that I never did and I'm grateful to the teachers that I met in highschool for never giving up on me and trusting me through everything.

I hope my teachers will be proud of the woman I become in the next five or ten years and I'll work hard to make them proud. Again, I'll forever be indebted to the guidance this school has provided me with and I am very grateful for it.

Rishona: My memory of my first day of school is really vague, but I remember my mom handing me over to an aunty to guide me to my classroom. I was scared, but once I got there, I knew I had no reason to be scared. I've been in this school for over 12 years, and all my memories were happy and sweet. My teachers were extremely supportive and kind to me for all these years, and I am deeply thankful for it.

I never expected this day to come so quickly, the thought of it never crossed my mind until the very end, and it saddens me everytime I think about it.

Thank you Gateway for these pleasant memories I will forever carry with me in my heart, and thank you teachers for every valuable lesson you've taught me!

Shanen: I am extremely thankful for all the teachers who have supported me in my thirteen years studying at Gateway. They have always supported me, and have constantly urged me to work harder, and have helped me overcome my weaknesses

I'm very grateful to have had teachers that always tried to give us the best schooling experience, whether the classes happened online, or offline. I cannot thank them enough for all the values and morals they've taught me. Because of them, I will continue to work hard, and will always strive to be the best version of myself.

Bhargavi: My heartfelt thanks to all the teachers who supported and guided me during this pandemic period. Classes via online are difficult but the teachers tried their level best to make us understand. They also helped me to clarify my doubts even after class hours. Last but not the least, I would like to thank our principal mam for giving us this opportunity to have online classes and making it more efficient.

They also helped us in the offline class and in conducting programmes by following all the safety protocols. Offline classes were a new experience for everyone after the pandemic but the school and teachers made sure we were safe and gained the knowledge

Kishen: Thank you to all the teachers. These past years have been magical and a rollercoaster ride of experience and lots of learning and knowledge. You expected me to succeed, and this motivated me to keep trying until I did. You set the bar high, and I learned more than I thought I could. You taught me that I am smarter than I thought and that failure is okay as long as I pick myself up and try again. Thank you for believing in me. That's what made me the best student I am today in your hearts.

Science Corner

Digestion is an important process in all our lives where the food is being processed and digested. Learners of Grade 2 were able to identify the parts of the digestive system and to explain the process. They were also very enthusiastic in making a clay model of the body systems during their learning process.

Home Economics

***HEALTH IS WEALTH*** " It is health that is real wealth and not pieces of gold and silver".

To familiarize grade 2 students with the concept of healthy food and it's benefits, a fresh fruit salad activity was organized for them in Home Eco class. " ***My Healthy Bowl*** ", through this fun fruit salad making activity students were able to understand the nutrient value of fruits and their taste. Such activities go a long way in encouraging the children to eat healthy and nutritious food.

" Marathon Imitates life - Never Give Up !! "

As part of their Global perspectives project, the grade 5 students hosted a Marathon Event at GTCS for the students in Grade 6 , 7 and 8 on 24th March 2022 at 2pm. It was a great show indeed. Winners were awarded with medals and certificates.
