## *Principal's Message*

Dear readers,

Most of us spend a lot of time thinking about why a very few people we come across are ready to spend time with us and few don't. This sometimes impacts our inner self in both positive and negative way.

To balance ourselves, we should learn to acknowledge the fact that everyone we meet need not necessarily like us, be interested in us or we can't please and that's fine.

Value the friendship and think of people who enjoy our company. Never waste our time or spoil our emotional wellbeing for people who are disinterested in us.

Work on instilling self-confidence and self- acceptance to keep ourselves in a positive light rather than running after unattainable friends and collaborators.

Always remain as an awesome human irrespective of what others feel!!

**SHARMILA MOHAN**

## Top Stories of this Month;

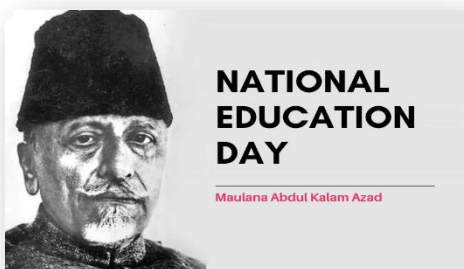

**1st February Indian Coast Guard Day**

**14th February Saint Valentines Day**

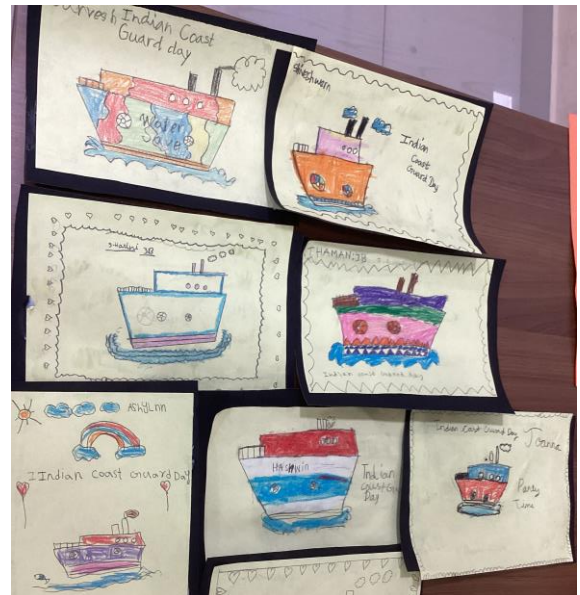

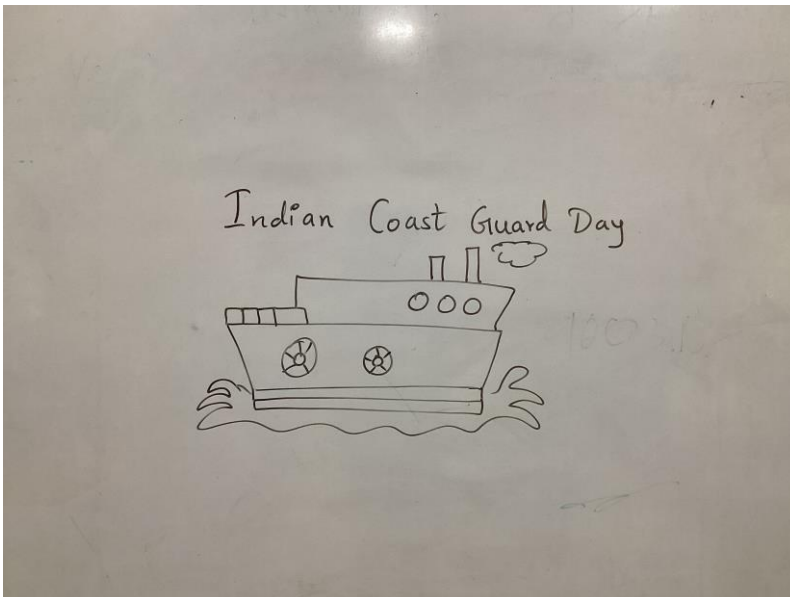

**21st February International Mother tongue Day**

**28th February National Science Day**

## Saint Valentines Day

Saint Valentine's Day or the Feast of Saint Valentine, is celebrated annually on February 14. It originated as a Christian feast day honoring one or two early Christian martyrs named Saint Valentine and, through later folk traditions, has become a significant cultural, religious, and commercial celebration love in many regions of the world. Students of Grade 3 observing the day by making small cards for their loved ones.

## International Mother Tongue Day

International Mother Language Day recognizes that languages and multilingualism can advance inclusion, and the Sustainable Development Goals' focus on leaving no one behind. UNESCO believes education, based on the first language or mother tongue, must begin from the early years as early childhood care and education is the foundation of learning. GTCS observed this day by creating a visual document on the multilingualism in our campus.

## Science Corner

Grade 9 Biology students are learning for life through Augmented reality @GatewayTheComplete School, they are able to witness the 3D structure of Neurone, their parts and their role in coordination and response.

## Science Corner

Digestion is an important process in all our lives where the food is being processed and digested. Learners of Grade 2 were able to identify the parts of the digestive system and to explain the process. They were also very enthusiastic in making a clay model of the body systems during their learning process.

Junior kindergarten enjoyed making butterfly crafts with heart shaped wings on the occasion of Valentine's Day.

## Kindergarten

Senior Kindergarten made an adorable little heart ladybug craft/ card on the occasion of Valentine's Day.

## Art Corner

Clay modeling is an activity that is therapeutically beneficial to kids in many ways. One important benefit of clay modeling is the role it plays in early childhood education. Grade 1 kids creating beautiful artifacts with clay in their Art and design class.

Clay modeling is an activity that is therapeutically beneficial to kids in many ways. One important benefit of clay modeling is the role it plays in early childhood education.

1. Improves hand-eye coordination skills
2. Develops fine motor skills
3. Teaches creativity
4. Encourages play-based learning

# Home Economics

In the Home Economics session as part of Planning a holiday travelling by train, students learnt how to create an account, check the availability of train, category, class and book a ticket for their family.

Emerging techies @GTCS

## Home Economics

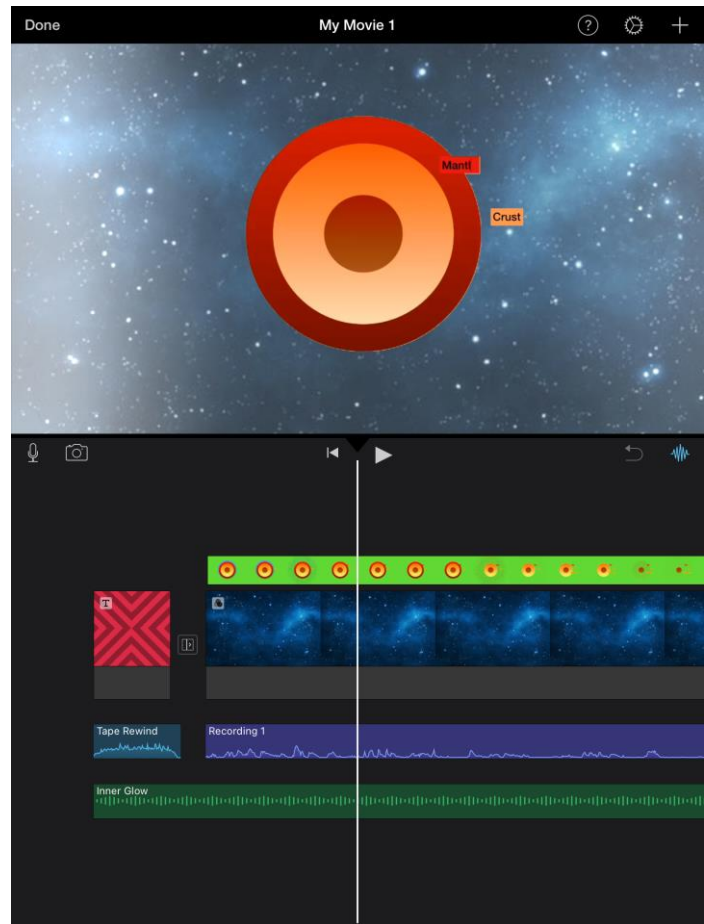

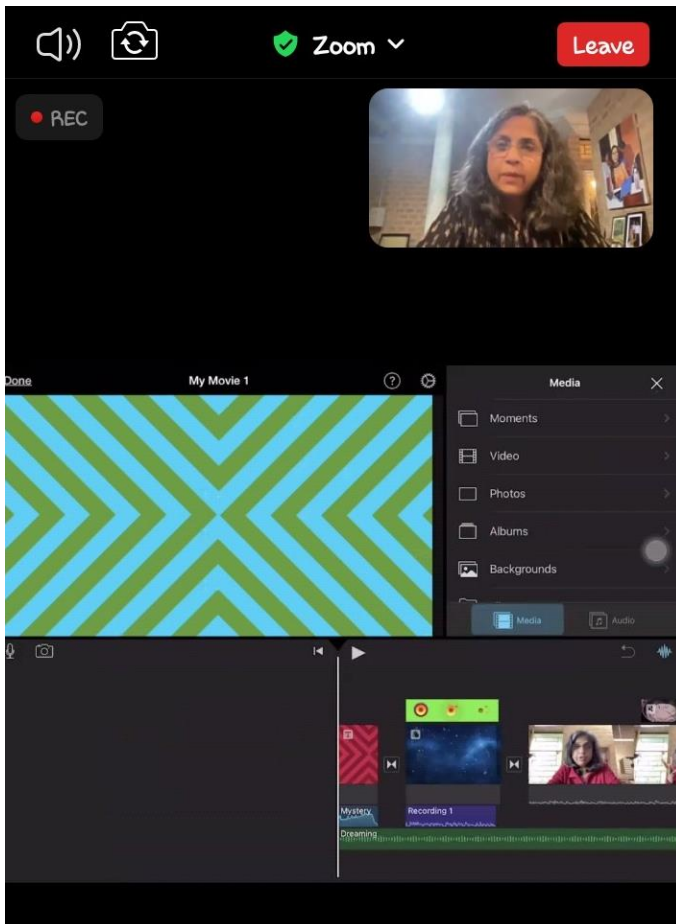

In a step forward to enhance their helping skills, students made Besan Ladoo as an evening snack in their Home Economics class. Through this the learners were able to showcase their creativity, analysis, presentation and application skills. They also learned about the nutritional benefits of this Ladoo.

## Professional Development

Special training was given to all teachers in creating iMovie and use it in their teaching and learning process. Trainer was MS. Rekha from Canadian International School. This training gave our teachers confidence to be creative in their classroom.
