

GATEWAY
INTERNATIONAL
SCHOOL

INSPIRING EXCELLENCE

Vision

We prepare students to meet the demands of an ever-changing world by providing them with opportunities for positive relationships with peers and adults, while engaging them in rigorous and relevant learning, to become compassionate human beings, critical thinkers and life-long learners.

Mission

Our mission is to provide a challenging, safe, caring and supportive learning environment to learners from culturally diverse backgrounds, which caters to all areas of a student's development, and which will help every learner realize his or her maximum potential and achieve excellence on the path to becoming global citizens who remain rooted in strong values.

At Gateway, we aim at:

- Discovering every child's potential
- Nurturing a life-long love of learning
- Creating an exciting environment
- Encouraging independent thinking
- Providing opportunities that challenge
- Ensuring high self esteem and confidence
- Sharing hopes and encourage optimism
- Providing opportunities to reflect on life and learning
- Encouraging good health and well-being of all

At Gateway, we value:

- Tolerance, equality and empathy
- Individuality
- Respect others and their values
- A partnership with parents and carers
- The opportunity to learn from others, in spite of their creed, colour or culture

We offer

- CBSE Curriculum.
- Classes from Pre KG to Grade
- Continuous and Comprehensive Evaluation (CCE) is followed which includes assessments in Scholastic as well as Co-Scholastic aspects of the learner.

Art and Design:

The school focuses on high standards of art, music, dance, drama and creative writing, both within the curriculum and in extra-curricular opportunities. Artists would work closely with staff and children in a variety of ways, such as sculptures, drawing and art.

Music & Song

Music and song are unique forms of communications that may change the way we feel, speak and act. Our teaching develops children's ability to listen and appreciate different genres. They would have opportunities to play instruments and to sing individually and collectively.

Indoor and outdoor activities

Physical Education develops sportsman ship, competence, confidence, and stamina, and also promotes positive attitude towards active and healthy lifestyle. We provide Karate, Chess, Tennis, Soccer, Basketball and Swimming within the curriculum.

Excursions and field trips

Excursions and field trips to places of historical importance, cultural richness and religious significance, are organized every year. Materials collected during these trips are shared with others in the form of presentations.

Associations

The Student Association, headed by the faculty, organizes all scholastic activities with students assuming responsibility. The Music Club, Eco Club and the cookery club are entirely student driven. Awards are given to selected students on the basis of talent and merit.

The Science Club

Gateway provides year round opportunities for students to explore science. Every month, members participate in an activity, project, or volunteer activity related to science. At the end of each year, a Science Exhibition is held where students exhibit their imagination at their best.

Value based Education

Value-based educational programmes provide opportunity to the students to have an insight into the spiritual and moral values reflected in our rich cultural heritage.

Library

The school has a well-equipped library and children are encouraged to take books home. We always foster a love for books and a keen interest in learning.

Cultural Activities

The Cultural Activities of Gateway are considered to be an effective means of educational training and learning. The school wishes the students to be earnest about these activities as we feel that apart from scholastic efficiency, a proper development of personality and attitude are equally essential. To achieve the objectives of peace, hope and harmony, the school offers comprehensive learning of creative and cultural activities.

Activity based learning programmes

Adding fun to education and making life in the school a thoroughly enjoyable experience through innovative educational programmes and activity-based learning methods is another significant aspect of our educational programme. There is a periodic display of charts, models and illustrated fun activities and projects made by children and teachers.
